Subject: Microsoft Settlement

I am strongly opposed to the settlement. It is too little, too late.

In the time between the rulings finding Microsoft guilty of violating antitrust laws, Microsoft has increased its dominance of the market even further, by continuing to use the same type of anticompetitive business practices.

Punishing Microsoft for its business practices will not quash innovation as they and their supporters claim. On the contrary, by allowing healthy competition to thrive, it will encourage innovation.

Best regards -
